

Anatomy for Healers®

For Experienced Energy Healers

Level 1—Gabriola, BC Sept. 29 to Oct. 1, 2017

This unique hands-on approach **integrates the knowledge of anatomy with the energy system of the body.** It is appropriate for **advanced energy healers** who are new to anatomy as well as for nurses and others who have studied conventional anatomy. Building on a firm foundation in Healing Touch, Healing Touch Spiritual Ministry, Healing Touch for Animals, or other energy therapies, **new energy techniques are learned to treat most of the body systems.** In addition, we have a good time interacting with other healers while experiencing the sacred miracle of the human body!

Testimonials...

“I have taken numerous classes in the various healing modalities and studied over 80 different disciplines. The very best of them all, for the experienced healer, is Anatomy for Healers®.” Sue Hovland, Program Founder, has a fabulous sense of humor and made an otherwise dry subject a whole lot of fun!

Linnie Thomas, HTCP/I, Portland, OR, Author of The Encyclopedia of Energy Medicine

“This joyful presentation helped to anchor my knowledge of anatomy and physiology...It introduced energetic components to the machinery of the body...I highly recommend it!!!”

Carol Komitor, CMT, HTCP/I, HTACP, CHBMT, ESMT, Founder and Director, Healing Touch for Animals®

“If you know energy, you need to know the physical body. If you know the physical body, you need to know energy. If you know them both, you need to know how to put them together in an energy medicine practice.”

Class Instructor: Jeannette Nienaber, BSc., MEd., HTCP/I

Jeannette delivers a lively and inspiring workshop filled with wisdom and humor. Her experience spans over 30 years in both Energy Medicine and Science Education which enables her to bring an eclectic fusion to her presentations. She is a Healing Touch Certified Practitioner/ Instructor who is also certified in many other modalities including the work of Roslyn Bruyere. This, in combination with her advanced education in Anatomy, Physiology, Biochemistry, and Psychology enables her to provide an experiential workshop that will enrich and amaze you!
