

Allergy Treatments for Healers

An Energetic Approach to Treating Allergies

Milwaukee, WI, October 27, 2017

Instructor: Sue Hovland

Energetic Allergy Treatment with Healing Touch or Other Energy Therapy

Allergens are substances that cause a disruption in the body's energy systems, causing symptoms depending where that imbalance occurs. Participants will learn to identify allergens by energy assessment and muscle testing. Then they will learn several different energy treatment approaches that will be useful in their HT or other energy practice by working on actual allergies of their partners in class. Self treatment will also be addressed. Allergies are rampant in our stressful, polluted, and chemical filled society. An allergic reaction can manifest as any symptom from GI distress, respiratory issues, skin conditions, brain "fog", weight gain, to interpersonal difficulties and behavior problems. Often an allergen can be relieved in one treatment. It works very well on children (and grandchildren!), too, as well as with pets.

Sue has been using this approach extensively and successfully in her healing practice, and you will find it very helpful as well.

Content...

- The definition of allergens and the history of energetic approaches to treating allergies.
- Learn to assess for allergies.
- Learn a basic energetic treatment protocol.
- Learn treatment variations for emotional aspects, anaphylactic reactions, multiple allergens, reactions to other people and trauma, and self treatment.

Prerequisite....

Healing Touch 1 or other similar energy therapy

Certificates for 8 contact hours for nurses and massage therapists will be given by AnatomyforHealers.com

For \$15, 8 CE hours for Nurses and Massage Therapists are provided by the Healing Touch Program, which is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

The Healing Touch Program is approved by the National Certification Board for Therapeutic Massage and Bodywork (NCBTMB) as a continuing education provider under Category A. Provider Number 150588-00.

Objectives...

- To define the concepts of allergies as they relate to the human body and energy field.
- Describe and perform the energy protocols that apply to the client with allergies.
- Learn energy treatments for special allergic situations.

Teaching methods include:

- Lecture • Notebook • Demonstrations
- **Interactive exercises & new energetic treatments**

COMMENTS:

*“Thank you again for the wonderful class in energetic treatment of allergies!
Lots of knowledge shared in a good way. Sue teaches from the heart, without ego, and with lots of humor.
I did learn so many things that can be readily applied as well—great!*

Micke Ptaszijnski, MD, HTP, Boulder, CO

*“The class teaches, many tools for helping clients clear allergies. Sue taught it in a way that provided
Techniques to utilize and ample time to practice. She finds ways to add humor and healing throughout the
course, which makes it really enjoyable as well as very useful. I highly recommend this workshop!*

Kathy VanDuser, MAPS, HTCP, Chicago area

*“Last weekend I spent 3 days with 2 grandchildren, Beckett is 4 and Clara, 7. On the first night which was Friday, Beckett had a
runny nose and cough. He was restless most of the night, and I was up with him at 3am. He has a history of bronchitis and eczma
which makes red areas on his skin. On Sat. afternoon, I asked him if he wanted some healing touch, and he said yes.*

All of my grandchildren know about Healing Touch and practice it on themselves, and it is okay with my daughters, too.

*I sat on a step behind him on the stairs, and first we did mind clearing very quickly. Then we did the new treatment for allergies,
which is a spinal back technique which I called “tickle back,” going down his back several times. We closed with a
deep breath and thinking of grounding. When he stood up, it was if he had a halo around his head! He was so relaxed, and walked
slowly into the den to play with his sister, playing quietly for hours. His attitude seemed to affect her, too. His nose never ran
again over the weekend. On Saturday night, we both slept through the night. I actually couldn't believe what I had seen!
We had a wonderful weekend!*

Janine (Janie) Hughes, RN, Williamsburg, VA
